Dear Mr. Casanova:

I attended the Community Meeting for the Falcon Refinery Superfund Site in Ingleside, Texas on September 16, 2004. Since that time, I have been working with Ms. Hoey, the EPA community involvement coordinator, on some questions about the site. However, she referred me to you for assistance with the Removal Action Work (RAW) Plan that is currently

9577515

being executed. It was my understanding, based on the presentation by Mr. Stephen Halasz from BNC, that various removal actions are currently underway and I am writing to request a copy of the RAW Plan that governs these activities, which I am assuming is publically available. The emails below contain the communications to date between myself and Ms. Hoey.

Your assistance with this request is greatly appreciated. My contact information is provided below.

Sincerely,
Sarah Dalton

Ms. Dalton:

I would like to refer you to Rafael Casanova on your question. He is the Remedial Project Manager and should have the answers you are seeking. Rafael's e-mail is casanova.rafael@epa.gov.

Please feel free to contact me with any other questions.

Falcon
Refinery in Ingleside, Texas

Ms. Hoey:

I would like to clarify a point from my earlier email. During the meeting last week, it was mentioned that the Remedial Investigation / Feasibility Study (RI/FS) work plan is currently under review by the EPA and is not available to the public at this time. There was also mention of a Removal Action Work Plan for the site. According to the presenter, portions of the Removal Action Work Plan are currently underway to address items such as securing the site, removing empty tanks, assessing the amount of waste present at the site, etc. Could you please verify if the Removal Action Work Plan is available or if it is still under review?

Thanks again for your help,
Sarah Dalton

Ms. Dalton:

Thank you for your information. I do remember our conversation and the work plan is not available at this time as it is still "in the process". When it is finalized a copy of it will be put in the repository for the community and all other interested parties to see and/or you may request a copy of it at that time.

I have already requested your being added to the mailing list so you should receive all the mail outs that we do on this site.

I am unable because of the privacy of the members of the community to send you copies of the sign-in sheets. If there is someone in particular that you are interested in perhaps I could help you by checking with that individual about your having their information.

Please contact me if there is anything else I can help you with.

Dear Ms. Hoey,

I attended the Community Meeting in Ingleside, Texas for the Falcon Refinery Superfund Site on Thursday evening, September 17, 2004. During the presentation, Mr. Halasz from BNC mentioned that a Removal Action Work Plan is currently being executed at the site. I am writing to request a copy of this work plan if it is publically available. Please let me know if you can assist me with this request, or please direct me to the appropriate contact.

At the meeting, I requested a copy of the list of attendees. When the list is available, please send it to my attention at the below address.

I would also like to be included on the mailing list for the Falcon Refinery site. My contact information is provided below.

Thank you for your assistance with these requests, Sarah Dalton
